LOT 232 - Skid-Steer Spade Grapple Bucket (New/Unused)

Description

This **Skid Steer Spade Grapple Bucket** is a versatile attachment designed primarily for tough digging, grabbing, and lifting tasks in landscaping, construction, agriculture, and land clearing. The spade-shaped bucket allows for precise penetration into soil, mulch, roots, or debris, while the hydraulic grapple arms provide strong clamping force to secure and transport irregular or heavy materials.

Common Uses Include:

- Stump and root removal
- Digging and prying out embedded objects
- Handling logs, rocks, brush, and debris

- **Clearing land and overgrowth**
- **Loading and moving heavy materials**

This attachment is especially useful when precision and grip are required, offering both digging functionality and the ability to clamp and transport materials without losing load control. It is ideal for contractors, land managers, and anyone needing efficient material handling on rugged terrain.

- **Bucket Width:** 20"
- **Bucket Length:** 41"
- **Max Opening:** 48"
- **Clamping Force:** 5 KN
- **Working Pressure:** 10 Mpa – 22 Mpa
- **Compatible With:** Skid Steer Loader

Quantity: 1
