LOT 265 - Heavy Duty Excavator Ripper (Fits CAT 336 & Similar Machines) (New/Unused)

Description

Heavy Duty Excavator Ripper – Break Through the Toughest Ground with Maximum Force

The **Heavy Duty Excavator Ripper** is a rugged, single-shank attachment built to tear through the most challenging ground conditions. Designed for use with full-size excavators, this ripper concentrates force to a single point, making it highly effective for breaking up **frozen ground, hardpan, rocky soil, shale, and asphalt**.

Key Uses and Benefits:

- Break and loosen compacted or frozen earth for excavation
- Rip through rock, shale, or hard clay with ease
- Remove roots, stumps, and buried debris during land clearing
- Tear up old asphalt or pavement before grading or removal
- Ideal for site prep, demolition, utility trenching, and mining

Constructed from high-strength steel and built to withstand extreme working conditions, this ripper delivers maximum ground penetration and productivity—turning your excavator into a powerful demolition and earthmoving tool.

Quantity: 1
