

**Sale Name:** Tulare, CA - July 27th Containers, Equipment, Tools, Materials, Recreational Goods

**LOT 337 - Skid Steer Articulating Brush Cutter (New/Unused)**

**Description**

**Skid Steer Articulating Brush Cutter – Reach, Cut, and Clear with Maximum Flexibility**

The **Skid Steer Articulating Brush Cutter** is a powerful and versatile attachment designed for cutting thick brush, tall grass, and small trees—even in hard-to-reach areas. With a hydraulic articulating arm, this cutter can pivot and extend beyond the skid steer's frame, making it perfect for trimming along roadsides, fences, ditches, embankments, and other challenging terrain.

**Key Uses and Benefits:**

- Cut vegetation on slopes, hillsides, and uneven terrain
- Clear fence lines, ditch banks, trails, and road edges
- Tackle overgrown brush and saplings with heavy-duty blades
- Reach under trees or around obstacles with articulating motion
- Ideal for property maintenance, municipal work, and land clearing

Built for durability and maneuverability, the articulating brush cutter enhances the reach and cutting angle of your skid steer—allowing for safer and more efficient operation in difficult locations where standard brush cutters can't perform.

Cutting Width: 57"

**Quantity:** 1
