

**Sale Name:** Tulare, CA - July 27th Containers, Equipment, Tools, Materials, Recreational Goods

**LOT 404 - 12V 20GPM Gasoline Pump (New/Unused)**

**Description**

**12V 20 GPM Gasoline Transfer Pump – Fast, Portable Fueling Anywhere You Need It**

The **12V 20 GPM Gasoline Pump** is a high-capacity, portable fuel transfer solution designed for quickly dispensing gasoline from tanks, barrels, or containers. Powered by a 12-volt DC power source, this pump is ideal for field use, remote job sites, farms, and mobile fueling operations where speed, reliability, and portability are essential.

**Key Uses and Benefits:**

- Quickly refuel generators, ATVs, boats, equipment, or vehicles in the field
- Transfer gasoline from storage tanks or drums with minimal setup
- Ideal for farms, construction sites, landscaping crews, and emergency services
- Compact and portable design for easy mounting and transport
- Handles up to **20 gallons per minute (GPM)** for efficient fueling

Durable and easy to operate, this pump saves time and reduces the hassle of manual fueling or transporting equipment to fixed fueling stations. It's a practical tool for anyone needing reliable fuel access on the go.

**Quantity:** 1
