LOT 266 - Heavy Duty Excavator Ripper (Fits CAT 320 & Similar Machines) (New/Unused)

Description

Heavy Duty Excavator Ripper (Fits CAT 320) – Break Through Tough Ground with Ease

The **Heavy Duty Excavator Ripper** designed to fit a CAT 320 is a high-strength, single-shank attachment built for penetrating and breaking up the toughest ground conditions. Ideal for demolition, land clearing, and site preparation, this ripper delivers concentrated force to tear through compacted soil, frozen ground, shale, asphalt, or rocky terrain with minimal effort.

Key Uses and Benefits:

- Break up hardpan, frozen earth, or compacted soil

- Rip and loosen rocky or shale-laden ground before excavation
- Remove tree roots and stumps during land clearing
- Tear up old pavement or asphalt prior to grading or removal
- Prepare difficult terrain for trenching or foundation work

Engineered for durability and high-impact performance, this ripper is a powerful addition to any CAT 320 excavator, offering increased productivity in demanding ground conditions where standard buckets fall short.

Quantity: 1
